| Project Name | Project -AI-Based Localization and Classification of Skin Disease with Erythema |

The screenshot displays the IBM Cloudant service page. The browser's address bar shows the URL: `cloud.ibm.com/catalog/services/cloudant?bss_account=ef7627758c3349249833a98ecb705666`. The page header includes the IBM Cloud logo and navigation links like 'Catalog', 'Manage', and 'RAJPRIYA R's Account'. A promotional banner at the top offers 600 USD in cloud credits with the code `CLOUDANTFREE600`.

The main content area is titled 'Cloudant' and describes it as 'A scalable JSON document database for web, mobile, IoT, and serverless applications.' Below this, there are tabs for 'Create' and 'About'. The 'Create' tab is active, showing a 'Select an offering' section with a single option: 'Cloudant', which is checked. A description of Cloudant is provided, along with a note that the 'Lite plan' is available.

On the right side, a 'Summary' sidebar lists the pricing for the 'Cloudant Lite' plan, which is 'Free'. The summary includes the following details:

| Feature | Value |
|----------------------|----------|
| 20 Reads/sec | Free |
| 10 Writes/sec | Free |
| 5 Global Queries/sec | Free |
| 1 GB Storage | Included |

At the bottom of the sidebar, there are two buttons: 'Create' and 'Add to estimate'.

The bottom of the screenshot shows the Windows taskbar with various application icons and the system clock indicating 02:21 PM on 03-11-2022.
